MicroCore contributors

The MicroCore contributors are a group of competent and trusted people, who exchange pre-release information about MicroCore developments. After having been accepted as a member, and having signed a personal non-disclosure agreement concerning pre-release information, a MicroCore Club member will receive the mailing addresses of all other members, and gain access to a private discussion group. Corporations are eligible for sponsor memberships. As a sponsor member, you may advertise that you have been accepted as a member, but you will not be entitled to receive pre-release information.
